ATOM LEARNING

Atom Prime is an on-line learning platform that teachers of the Prep girls may use for homework or on-line learning. For this your daughter will have been given her own log in details. If she needs reminding of her log in details please email the school office. If work is set on this platform they will have been notified via Google Classroom.

Please note that Atom Prime is not the same as Atom Nucleus. The latter is their platform for parents and requires a subscription.
